Our series for young learners come to life with the Talking Pen

Now, the **Talking Pen** accompanies our Pre-Junior and Junior series, as well as Tech it easy! 1. With this innovative educational tool, students can listen to and read the vocabulary, the stories and the songs in their books, simply by placing the Talking Pen on the pages.

Thanks to this magical gadget, students:

- ✓ learn in a direct and enjoyable way
- ✓ acquire correct pronunciation and intonation
- ✓ become self-disciplined and independent learners
- ✓ enhance their listening, reading and speaking skills

The same Talking Pen can be used for any series that is compatible with it (Super Readers, Little Stars, Hobbyville Junior A, Hobbyville Junior A to B, Super Junior A, Super Junior A to B, I like Junior A, I like Junior B, Tech it easy! 1).

With the Talking Pen, I can learn to speak English with perfect pronunciation!

HEY KIDS! LET'S PLAY!

By choosing one of our Junior series, you can get a **SPECIAL OFFER** for the Talking Pen and the Super Readers.

Tech it easy! 3 VR Tour

The Tech it easy! 3 VR Tour application offers a unique learning experience to English language learners through the use of Virtual Reality (VR).

It consists of 18 different VR tours which give students the opportunity to travel “virtually” around our planet - and beyond - and get to know cultures from all corners of the world. The content is based on the Coursebook material and has been carefully developed with the students’ level of language proficiency in mind. The application aims at offering students unforgettable experiences that will enrich their general knowledge as well as their language skills. Each tour comes with a worksheet, which motivates students to use the English language to share what they have learnt and experienced during the tour.

The application is available on i-book, Interactive Whiteboard Software and Oculus Store (“Tech 3 VR Tour”).

The Tech it easy! 4 AR Experience application offers a unique learning experience to English language learners through the use of Augmented Reality (AR).

It consists of 6 different Coursebook lessons which combine learning with fun by bringing the texts to life in the students' real world and giving them the opportunity to interact with their book. Augmented Reality visualises the information presented in the texts of the respective lessons found in the Coursebook. The application aims at offering a deeper understanding of the texts since it enriches students' knowledge through the presentation of extra information.
